

Our Mission

We enable mission-driven startups to ascend through the ranks of business success, fulfill their purpose, and achieve greatness.

Our Vision

A Kleos Hall of Fame full of epic organizations that have achieved true business glory by enriching the world through everlasting gifts of wickedly-smart and thoughtful innovation.

Our Values

The name started as a simple idea to abbreviate founder Kimberly Leonard's name and grew into something so much more. Kleos is an ancient Greek word that just so happens to hold meaning of great significance for The Kleos Group founder. And so, The Kleos Group was born.

Kleos means Glory (with a capital G!), attained through good deeds and hard work - acts and feats so selfless and grandiose - that heroes were made.

What does that have to do with providing wickedly smart financial talent to startups?

It has everything to do with it, when that business is led and guided by the very same values that make heroes:

Honor + Integrity

Service + Dedication

Brilliance + Caring

To The Kleos Group, there is nothing more important than being honorable, acting with integrity, being authentic, staying true to one's word, performing great deeds for the good of others, recognizing, embracing, and achieving brilliance, and doing so with a deep sense of caring and dedication to making the world a better place.
